EXPERIENCE

Sewan Groupe · Permanent · Paris (75)

Lead Frontend Engineer — UI Kit Owner & Architect

Aug. 2021 — Present

Owner and technical lead of Sewan's internal UI Kit — a React component library distributed to **~15 product teams** via a private NPM registry. Single point of contact between design system teams, consuming developers and technical management.

- Design and evolution of robust React + TypeScript component APIs, documented in Storybook, following a TDD approach
- Backlog prioritization, gathering and arbitrating requirements from ~15 teams
- Cross-team support: onboarding, code review, debugging and training of consuming teams

> **Complete stack modernization** · In production
>
> End-to-end technical overhaul led solo to modernize tooling and significantly improve developer experience (DX):
>
> - Storybook v5.3 → v8.6 (CSF 2 → CSF 3 migration), Node.js v16 → v22
> - Jest → Vitest, Webpack → tsup + Vite (significantly faster builds)
> - npm + Lerna v4 → pnpm + Lerna v8; switch to strict TypeScript
> - Complete CI/CD GitLab pipeline overhaul

React.js · TypeScript · Storybook · Vite · tsup · pnpm · TDD · Vitest · Node.js · Lerna · CI GitLab

Senior Full-Stack Engineer — Core Platform (React, Node.js, GraphQL)

June 2021 — Present

Core team member (3 developers) responsible for the technical foundations of **Sophia Go**, Sewan's central business platform.

- Design of cross-functional front-end architecture: global store, common business logic, shared configuration and internal libraries used by all feature teams
- Full-stack development of critical modules: React/TypeScript client-side, Node.js/GraphQL server-side
- Driving major technical evolutions and supporting teams in their adoption

> **friday — GraphQL BFF**
>
> Design and development of a GraphQL Backend-For-Frontend decoupling the front-end from back-end microservices. Simplifies API contracts and reduces coupling between teams.
>
> Node.js · GraphQL

> **onboarding-app — React Client Portal**
>
> From-scratch development of the React onboarding application for the Sophia Go platform — the critical entry point for new Sewan clients.
>
> React.js · TypeScript · Redux.js

Wibilong · Permanent · Paris (75)

Full-Stack JavaScript Engineer — React, Node.js, AWS

Sept. 2019 — June 2021

End-to-end full-stack development of Wibilong's SaaS solutions (WiService V3, WiManager, WiSell), within a two-developer team.

- End-to-end feature development: from product mockup to production, front-end (React, Redux) and back-end (Node.js, serverless AWS)
- REST API design and documentation under Swagger; deployment via AWS Lambda, API Gateway and CloudFormation
- Production maintenance and bug resolution

React.js · Redux.js · Node.js · AWS Lambda · API Gateway · CloudFormation · Elasticsearch · SQL Server · Swagger

Supralog · Apprenticeship · Antibes (06)

Full-Stack JavaScript Developer — Apprenticeship

June 2018 — Sept. 2019

> **MyFFBaD — FFBaD Licensee Portal** · Delivered on time
>
> In a pair, from-scratch development of the licensee portal for the **French Badminton Federation** from mockups and specifications — then design, implementation and deployment of 3 microservices on GCP.
>
> React.js · Redux.js · Next.js · NestJS · Docker · Kubernetes · Google Cloud Platform

> **CLARIS — Certification IS Overhaul** · 3 sprints delivered
>
> Within a 7-developer team, participation in the front-end overhaul of the CLARIS IS for **Eurovent Certita Certification SAS**, a European leader in industrial certification.
>
> React.js · Redux.js · TypeScript · ChartJS

Beepeers · Internship · Valbonne (06)

React.js Developer — Internship

May 2017 — Aug. 2017

> **Dream Nation Festival 2017 — Event Website** · Delivered on time
>
> Complete design and development of an event website with reservation system and online payment.
>
> - Screen architecture and mockups
> - React development with ticketing integration (Fasticket) and card payment (Weezevent)
> - Maintenance of existing AngularJS websites
>
> React.js · Redux.js · AngularJS

PROJECTS

Freelance projects

Study SARL · Website · HTML 5, CSS 3, PHP, WordPress

Kane Riviera Transfert · Web application · HTML 5, CSS 3, React.js, Redux.js

Trouillet Décors · Brochure website · HTML 5, CSS 3, WordPress

Y-YServicies · Brochure website · HTML 5, CSS 3, WordPress

Baby gifts · Brochure website · HTML 5, CSS 3, WordPress

Personal projects

Chess game · Web application · HTML 5, CSS 3, JavaScript, Gulp, Mocha, Babel

Audio plugin store · Web application · HTML 5, SCSS, React.js, Redux.js

Connect Four · Web application · HTML 5, CSS 3, Express, Swagger

Calculator · Web application · HTML 5, CSS 3, React.js, Redux.js

SKILLS

- Technologies: HTML 5, CSS 3, JavaScript, TypeScript, Node.js, Express.js, React.js, Redux.js, GraphQL, SQL, Docker, Java SE
- Mockup integration
- RESTful API development
- Unit testing
- Agile Scrum methodology
- Solid grasp of object-oriented programming concepts
- Good knowledge of design patterns (singleton, observer/observable, etc.)
- Abstraction and design skills (class, use case and sequence diagrams, database schemas)

EDUCATION

Master's degree in Computer Science (MIAGE), MBDS track

2016 – 2019 · Université de Nice

Big data, database administration, development of JEE, JavaScript (React.js, Angular, Vue.js and Node.js) and mobile (Swift and Android) applications

Two-year technical degree in Computer Science (DUT)

2014 – 2016 · IUT de Nice

Software design and development, system administration, etc.

Preparatory class for engineering schools

2013 – 2014 · Polytech Marseille
